

## Creating a Course in Pathbrite

To do any work in course creation or modification, you must use your Admin account for Pathbrite and log in to Pathbrite through the LMS. You can do this by accessing a sandbox, clicking anywhere that there is a Pathbrite link (usually under Course Home or Week One).

You will need to have the following information available before you begin:

- Course Code (such as NR224)
- Course Title (such as Fundamentals: Skills)
- General field of study (such as Nursing)
- Course Description (from the Syllabus)
- Start Date (of Preview Week)

Open Pathbrite in a new tab or window.

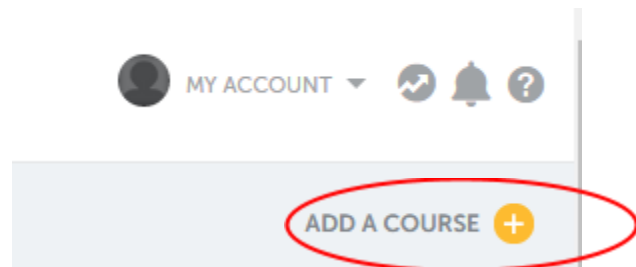

Click on **Work in Pathbrite**, which is in the dropdown menu under Pathbrite in the upper right corner of the screen.

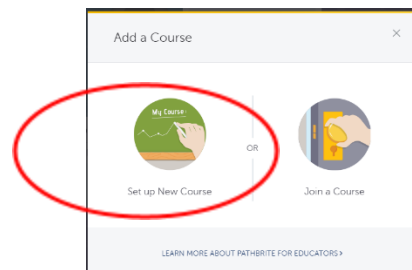

Click on **Courses** in the upper left corner of the screen.

Click on **Add a Course** in the upper right corner of the screen.

Click on **Set up New Course**.

Put the Course Code and Title in the field titled **Course Name**.

Copy-paste the **Course Description** from the Master Shell Syllabus.

Put the general field of study under **What is the Subject of this Course?**

Be sure to select the proper **School/Community Affiliation**.

Enter the **Start Date** based upon when you want the Pathbrite materials to be visible to instructors (such as during Preview Week).

Leave **End Date** set as an **Ongoing Course – No End Date**.

Click **SAVE**.

The screenshot shows the 'Add a Course' form with the following details:

- COURSE NAME:** NR224 Fundamentals: Skills
- SECTION NUMBER (OPTIONAL):** (Empty field)
- COURSE DESCRIPTION (OPTIONAL):** Students are introduced to the fundamental skills of professional nursing. An introductory unit of physics provides the basis for understanding concepts such as body mechanics, positioning, and mobility. The laboratory component provides practice of selected fundamental nursing skills, as well as psychomotor skills necessary for care of individuals requiring assistance with mobility, hygiene, and comfort. Included are basic principles of drug administration, teaching-learning and vital-sign assessment. Students have the opportunity to develop the beginning skills of a professional nurse through experiential learning.
- WHAT IS THE SUBJECT OF THIS COURSE? (OPTIONAL):** Nursing
- SCHOOL/COMMUNITY AFFILIATION:** Chamberlain College of Nursing (selected) OR + New Community
- Start and End Dates:** START DATE: 02/12/2017 12:00 AM; END DATE: Ongoing Course - No End Date
- Save** button at the bottom right.

Then click **Start Course** on the next screen.

If you need to change any of the information (such as **Start Date**), you can access these fields again by clicking on Settings in the navigation panel on the left side of the screen.

The screenshot shows the Pathbrite interface for a course page. The navigation panel on the left includes the following options:

- Course Home
- Assignments
- People
- Scorecard
- Showcases
- Reports
- Preview as Student
- Settings** (circled in red)

The main content area displays the course title 'NR224 Fundamentals: Skills' and the course description: 'Students are introduced to the fundamental skills of professional nursing. An introductory unit of physics provides the basis for understanding concepts such as body mechanics, positioning, and mobility. The laboratory component provides practice of selected fundamental nursing skills, as well as psychomotor skills necessary for care of individuals requiring assistance with mobility, hygiene, and comfort. Included are basic principles of drug administration, teaching-learning and vital-sign assessment. Students have the opportunity to develop the beginning skills of a professional nurse through experiential learning.'
