Course Home - ConnectYard (HIDDEN TO STUDENTS)

I am excited to provide you, my students, with a new tool that will help you stay on top of updates in your course from me, your instructor.

ConnectYard is a tool that links the updates that I make to your course to your phone via text or a non-Carrington e-mail. So instead of having to log in to your course to read a reminder from me about what is due, or whether I have graded your assignment, that information can be delivered PRIVATELY to you via text message, or via your alternative e-mail which is likely to already be on your phone.

Before you click on the link below to activate this feature, think about which of those options would be the best way for you to get notifications from me. You will probably want to select only ONE. That way, when I post an announcement you get one notification -- via text, for example, instead of getting a text AND an e-mail on your phone. Please note that ConnectYard will automatically send these updates to your Carrington e-mail, so if you have put that e-mail on your phone, you may not want to add additional notification channels.

Once you have completed the Setup Wizard, you don't need to go to ConnectYard ever again. Do all of your coursework within this online course as usual. ConnectYard will keep you updated on your phone as I post announcements or updates or reminders.

Go to the [ConnectYard Setup Wizard](#) to begin.

For additional information about ConnectYard, or help regarding how to complete the Setup Wizard, or troubleshooting suggestions, please go to the [ConnectYard Resource Page on THE|HUB](#).

Click on the Hidden Item in Course Home which you wish to "Un-Hide" or Show.
